EMS 933 CRAWLER MOVING CIRCULAR VIBRATING SIEVING STATION

PRODUCT CHARACTERISTICS:

The EMS933 crawler moving circular vibrating screening station is a new product developed by Shandong Mix Machinery Equipment Co., Ltd. according to demanding of market. It is hydraulically driven, equipped with a three-layer sieve and four conveyor belts conveying finished materials, crawler moving circular vibrating sieving station featuring high productivity, quick installation, easy maintenance and convenient transportation

- ➤ High efficiency of sieving because of the whole new large-size and three-layer sieve and hydraulic motor driving.
- ➤ The combination of the wedge tension device, the inspection hole and the underlying hydraulic tension device make the installation and replacement of sieve more convenient and quicker.
- ➤ The four-stage finished material conveyor belt can be tilted or rotated to adjust the discharge position to meet different stacking requirements.
- Reliable folding system reduces the space occupied by equipment and facilitates transportation.

Địa chỉ: Số 4 Đường số 21a, Phường Bình Trị Đông B, Quận Bình Tân, TP.HCM Tl: 028.36205331 Fax: 028.36201387

Finished material conveyor

Finished material conveyor, the head can be

hydraulically folded, the discharge height is 5200mm,

and the bandwidth is 1200mm.

Oversized material conveyor

Bandwidth:500mm

Discharge height: 4400-5300mm

Side angle:0-85 degrees

The discharge height can be adjusted hydraulically.

screening box

The new large-size three-layer screen screen box,
driven by imported hydraulic motor,
ensures efficient screening capability.

Motor

Import Carter engine, drive triple gear pump

Full hydraulic drive

Stable and reliable performance;

Equipped with imported brand air filter

Địa chỉ: Số 4 Đường số 21a, Phường Bình Trị Đông B, Quận Bình Tân, TP.HCM Tl: 028.36205331 Fax: 028.36201387

hopper/feeder

Hopper capacity: 8m³;

Feeding height 2600mm,

Adopting imported reducer.

track

Adopt British Strickland crawler, Bonfiglio Motor,

Bonfiglioli reducer, Suitable for

all kinds of bad road conditions.

TECHNICAL PARAMETER:

Scope of application	It is used for separating crushed gravel aggregates and aggregate gravel layers for recycling.
Processing capacity	350tph *The data is based on broken limestone and a bulk density of 1.6 t/m³. The actual production depends on the composition of the raw materials, the size of the feed, and the pre-sieving.
Hopper capacity	8m³
Sieving box	Sieving box Double bearing high performance three-layer circular vibrating sieve 6100mm×1520mm
Power	CAT C4.4 97kW
Weight	40t (No fixed sieve)
Dimension of transportation status	19300mm×3000mm×3500mm
Dimension of working state	19500mm×17800mm×7100mm

Địa chỉ: Số 4 Đường số 21a, Phường Bình Trị Đông B, Quận Bình Tân, TP.HCM Tl: 028.36205331 Fax: 028.36201387

EMJ 107 TRACKED MOBILE CONE CRUSHER

PRODUCT CHARACTERISTICS:

1. Oil and electricity dual-use, provide more choices.

It can be powered by a switch or a built-in generator set or an external power supply.

2. Low production and maintenance costs.

The operating system is stable and reliable. When using an external power supply, the unit production cost is significantly reduced, providing customers with more benefits.

3. Advanced technology.

The cone crusher is driven by a motor, which has low energy consumption, high output, good grain shape of the finished product. The chamber is equipped with an overload protection system and adjusts the size of the discharge door by hydraulic pressure. A metal detection system is installed on the belt feeder to protect the chamber from metal.

4. Can be put into use quickly with free installation.

The folding mechanism is hydraulically folded, and it takes only a few minutes to change from the transport state to the working state, and there is no unnecessary installation.

Địa chỉ: Số 4 Đường số 21a, Phường Bình Trị Đông B, Quận Bình Tân, TP.HCM Tl: 028.36205331 Fax: 028.36201387

Main conveyor

Electric control cabinet and control pane

Width of main conveyor belt, Discharge height Equipped with a spray system, it is PLC adopts German IFM brand, with stable quality and simple operation. The

more environmentally friendly during work.

control cabinet has high protection

level and and is protected by an outer cabinet.

Iron remover (optional)

Power:2.2kw

Rare earth Nd-Fe-B permanent magnets,

Magnetic field intensity 700Gs,

Belt speed 1.5m/s.

Track

Adopt British Brand Track Strickland

Rexroth motor

Bonfiglioli reducer

Suitable for all kinds of bad road conditions

Receiving hopper

Hopper capacity:9m³

Full hydraulic folding without manual fixing

The panel is made of wear-resistant material

Vibrating feeder

Vibration motor 2 x 7.5 kW frequency conversion

Adopting the industry-leading

vibration motor - OLI-WOLONG Motor.

Pre-screening function

Địa chỉ: Số 4 Đường số 21a, Phường Bình Trị Đông B, Quận Bình Tân, TP.HCM Tl: 028.36205331 Fax: 028.36201387

TECHNICAL PARAMETER:

Application	Primary crushing of aggregate treatment, solid waste treatment, mining, etc., can use the generator set of the equipment, or set up the power grid	
Hopper capacity	9m³	
Feeding height	4000mm	
Chamber inlet size	1070×762	
Discharge door adjustment range	45mm-175mm	
Main belt discharging height	3350mm	
Power	240kW (Normal power)	
Max capacity	The data is based on crushing limestone and a bulk density of 1.6t/m³. The actual production depends on the composition of the raw materials, the size of the feed, and the pre-screening.	
Weight	52t	
Transportation size	14500mm×3000mm×3600mm	
Working size	15850mm×4340mm×4000mm	

Địa chỉ: Số 4 Đường số 21a, Phường Bình Trị Đông B, Quận Bình Tân, TP.HCM Tl: 028.36205331 Fax: 028.36201387

EMC 100 TRACKED MOBILE CONE CRUSHER

EMI 130 TRACKED MOBILE JAW CRUSHER

PRODUCT CHARACTERISTICS:

EMI130 Tracked mobile impact crusher the latest generation of mobile impact crushing equipment.

It is widely used to process blasting natural stone, asphalt mixture and demolition residues, and produces top-quality finished products.

- ➤ Super heavy-duty rotors, high wear-resistant materials and large crushing cavity make it have large feeding size, stable product, high output, good particle shape and large crushing ratio.
- > The rear frame of the crusher is opened by hydraulic pressure for easy maintenance and repair.
- Side discharge belt can be disassembled and folded.
- Adopt intelligent wireless remote control device to walk on the track by itself, and can operate the upper and lower flatbed trailers by single person remote control to realize fast transition work.

Địa chỉ: Số 4 Đường số 21a, Phường Bình Trị Đông B, Quận Bình Tân, TP.HCM Tl: 028.36205331 Fax: 028.36201387

> Optional iron remover or returning system or plate feeding system according to customer needs.

TECHNICAL PARAMETER:

Capacity	450t/h
Max feeding size	1100mm×700mm
Crusher feeding inlet	1300mm×900mm
Crusher rotor diameter	1200mm
Crusher drive power	260kW
Motor power	135kva
Diesel power	371kW
Transportation dimensions	18400mm×3000mm×3750mm
Weight	49t(58tcrs)

Địa chỉ: Số 4 Đường số 21a, Phường Bình Trị Đông B, Quận Bình Tân, TP.HCM Tl: 028.36205331 Fax: 028.36201387
